Fresh Start Diet: Higher Protein

Duration: 7 days

This temporary eating program is designed to help take stress off of your digestive tract so as to provide an environment for proper healing and repairing of the digestive tract. The foundation of this diet is the Vegetable Broth. Make up a lot of VEGETABLE BROTH—see recipe on page 2. Drink lots of this broth. It is full of minerals.

At the end of your “Fresh Start Program” please refer to the body of your report and implement those recommendations.

WHAT TO EXPECT FROM THE FRESH START PROGRAM

The first day you may feel slight discomfort by having changed your regular mode of eating, but do not allow this to disturb you, for it is natural. About the 3rd or 4th day the bowels and kidneys will begin to move freely. As a result of this cleansing process, you may experience symptoms of headache, perhaps nausea, gas, and a few aches and pains. Do not be alarmed. These symptoms are quite natural and to be expected. About the 5th day you should start to feel a surge of energy.

When you start this program—STICK TO IT! Don't try it, fall off the horse, then quit. Get back on the horse and continue! Follow the instructions and you will be surprised at how refreshed you feel at the end of the process.

BREAKFAST FOR EACH OF THE SEVEN DAYS

Fifteen minutes before you are ready to eat breakfast, squeeze the juice of a lemon in a medium glass of hot water and drink it.

CARROT JUICE

8 ounces. You can take more if you desire, but be sure that you take 8 oz. at least.

BOILED EGGS

2 hard-boiled eggs.

FRESH FRUIT (north of the Mason-Dixon line: blueberries, strawberries, raspberries, etc.)

One-half pound. You may eat more, but be sure to eat at least ½ pound. You can eat only one kind of fruit or you may mix.

Between breakfast and lunch you should drink all the VEGETABLE BROTH (see recipe on page 2) you can hold. Also eat fresh, raw vegetables and fruit. **The more of these that you consume, the more thorough will be the cleansing.**

RECIPE FOR VEGETABLE BROTH

Take 7 carrots and 1 small bunch of celery and cut fine. Place in 2 quarts hot water and boil for 15 minutes. Add 1/3 bunch of parsley and a large handful of fresh spinach, cut fine. Boil 10 minutes more. Drain off the broth. Flavor with a pinch of salt, okra, tomatoes, green peppers or garlic. Mix with one quart of organic vegetable juice of your choice or V8 juice (low sodium).

The above recipe makes about one day's supply. You can make more if you desire and place in refrigerator. It can be used hot or cold.

The purpose of this broth is to provide an easy venue for concentrated nutrition and cleansing. Drink lots of it during the seven days. It is full of minerals from the vegetables.
